VISITOR'S PROFILE

Architects
Interior designer and decorators
Electrical engineers, technicians
Industrial product engineers
Lighting systems designers
The distributors and vendors of the companies
Executives of the construction firms
Investors and executives of tourism business
Shopping center's executives
Retail chain shop's executives
Lighting products representatives and vendors
Consumers
Local authorities managers
Academicians and university students
Members of the chambers and associations related with sector
International trade, import and export companies

Why Istanbul?

7th International Lighttech Fair will be held between the dates of 13-16 March 2014, in Istanbul, the most crowded city of Turkey.

Istanbul, a "World Capital" with a population of over 15 millions, is one of the centers of Turkish construction industry. In parallel with the revival of the Turkish construction industry and the emerging Economic growth since 2010, the lighting industry has enjoyed a good recovery after the 2009 economic crisis. Despite the Global Crisis and the negative position of the world trade, Turkey managed to grow its economy % 8,9 in 2010 and the production of durable consumer goods increased by 7.2%. Construction, the manufacturing industry, booming tourism industries and a shift towards energy efficient products are creating a bright future for the Turkish Lighting Industry. Given that the increasing importance of the environment technologies and the energy efficiency concept, there has been developed new technologies in lighting sector. The energy efficient lights and LED lighting systems gain significance day by day.

There are about 50 large scale companies and 300 medium and small scale companies in the industry dealing with production. Most of these companies are in Istanbul with some in Ankara and Izmir.

PRODUCT GROUPS

LIGHTING TECHNOLOGIES:

LIGHTING FITTINGS, CHANDELIER AND LIGHTING SYSTEMS:

Chandeliers, Fittings, Wall-Lights, Table Lamps, Projectors, Crystal Lamps.

LIGHTING SYSTEMS:

Residential Lighting, Land Lighting, Garden Lighting, Outdoor Lighting, Show Window Lighting, Projector Lighting, Security Lighting, Street Lighting, Road and Traffic Lighting, Special Lighting, Emergency Lighting, Lux Lighting Systems, Action Sensor Lamps, Underwater Lighting, Open-Air Lighting, Orientation Lighting.

ELECTRICITY & INSTALLATION TECHNOLOGIES:

ELECTRICITY & INSTALLATION MATERIALS:

Installing, Canal and Distribution Systems, Ballasts, Installation Technology and Preservation Systems, Electricity Installing Materials, Switch-Socket, Key Group and Plug, Assembling Materials, Preservation Systems, Switchboards, Counters and Time Recorder Materials, Conductors and Switching Equipments, Cable-Wire, Isolations, Buttons, Signal lamps, Conductors, every kind of electricity installation materials.

POWER TECHNOLOGIES:

Energy Production-Conduction-Distribution Materials, Electric Motors Generators, UPS, Power Sources, Alternative Energy Systems, Solar Energy, Wind Energy, Electric energy Automation, Transformers, Switchgears.

LED TECHNOLOGIES:

LED Lighting, Traffic Signals, LED Indicators, LED Background Lighting, LED Architectural Lighting, LED Lamps, LED Chips, LED Modules, LD(Laser diodes), related components.

FAIRGROUND

Cnr Expo Fairground

Istanbul Expo Center is the main fairground of Istanbul World Trade Center. Inside this trade complex established on a 500,000 square meters, you can find hotels with four and five stars options and a huge congress center with the capacity of 3,500 guests.

Istanbul Expo Center, with its huge venue area, is not only the biggest fair platform of the Eastern Europe, Balkans and the Middle East, but it is also the most developed fair ground of the region with its location, hi-tech infrastructure, transportation and communication facilities.

As an international meeting platform, Istanbul Expo Center hosts many domestic and overseas companies from various sectors. Its location, infrastructure, the huge venue area and an open area of 150,000 square meters makes Istanbul Expo Center the indispensable address of effective events.
